Policy Statement

This WDNA policy has been steered by Victorian State Government and Monash Council recommendations along with guidance from Netball Victoria.

Information from the Victorian State Government, COVIDSafe Summer, DHHS updates, and direction from Netball Victoria and Monash Council have been taken into consideration in the development of this policy.

Resumption of sport can significantly contribute to the re-establishment of normality in Australian society. To ensure the safety of our community, this policy must be strictly followed by all persons attending or representing Waverley District Netball Association (WDNA).

This policy applies to all netball competitions and events run by Waverley District Netball Association (WDNA) at the Ashwood Courts or Oakleigh Recreation Centre.

Aim

- To contribute to the physical, psychological, and emotional well-being of our community
- To optimise athlete and community safety
- To preserve our health and minimise risk of community transmission

Special requests

- 1. Download the COVIDSafe App** - WDNA acknowledge outdoor activities are a lower risk setting for transmission. We request all those attending a WDNA competition or event or representing WDNA to download the COVIDSafe app (including players under 18 - parental consent required). This app will help health officials to quickly contact people who may have been exposed to COVID-19. This helps support and protect you, your family, and friends.
- 2. Update your contact details on My Netball** - In the event of a suspected or confirmed case of COVID-19, we may need to contact you or provide your contact details to the DHHS. Please ensure the details (including mobile phone numbers and email addresses) are correct on My Netball.
- 3. Register your attendance via the displayed QR codes.** WDNA & Oakleigh Recreation Centre are using the Victorian State Government QR application to enable quick registration by all attending a WDNA run competition or event. Players listed on a scorecard do not need to register via the app.
